FARMERS PLEDGED TO CONTRIBUTE TO THE PATRIOTIC FUND

"Patriotism was the keynote of the recent convention of the United Farmers of Alberta," said President James Speakman, yesterday. "Every local in the province is pledged to make some sort of a contribution to the patriotic fund and I look for a very substantial contribution. The aggregate." The convention took the matter up very enthusiastically and adopted the following resolution by unanimous vote:

"We, the United Farmers of Alberta, assembled in our annual convention, desirous to do all in our power to help our country, and to give relief to the sufferers in the present war, especially to the people of Belgium, pledge ourselves to call together our means as soon as possible after our return home, and to appeal to them for subscriptions in money and farm produce, such gifts to be placed at the disposal of our central office in the name of a union, and then offered as a gift of the United Farmers of Alberta, to the British authorities, to be used by them in the way that seems to them most needful."—Albertan.

5,000 PAGES ABOUT CANADA

"Know Canada! make Canada known!" is a striking sentence in the War Year edition for 1915 of "About Canada," compiled by F. N. Yeigh, of Toronto, who makes Canada as probably the best known of all countries. It is true that he would know Canada and its wonderful growth in a year, and find this publication "worth its weight in Yukon gold or Cuban silver," while as a means of making the Dominion known in other countries, it is no less valuable. Fifty chapters are devoted to such subjects as Agriculture, Arts, Banking, Census, Immigration, Mining, Manufacturing, Trade, etc., and a page of Canadian War Facts show how up-to-date it is. Sketch maps are included of the Dominion in 1867 and 1915. Copies may be had from progressive newspapers, or by mail from the Canadian Facts Publishing Co., 588 Huron Street, Toronto.

BRIEF REVIEW OF THE WAR TO DATE

Perhaps the best summary of the situation is that of The London Times of January 18. It is said:

"There probably will be no startling change in position either east or west, until spring, and for a while the situation in this area is those of some time longer, the weather, will be the dominating factor throughout the theatres of war. The position on the Aisne has undergone a slight important change since the British army moved out to the alkali flat on early in October. The most useful movement in this area are those recently conducted by French troops on the western end of the Aisne ridges. The situation in Poland will be greatly changed by the German army's recent advance. It is necessary before the German army is expelled from Poland."

The Allies cannot make much progress in France until Russia has increased the pressure in Poland and East Prussia. These two movements must be simultaneous, and that probably spells a big campaign in May, though there will be much fighting in the meantime.

Will the final result turn on financial exhaustion or physical exhaustion or military efficiency? To date, the nations at war have issued war bonds amounting to six thousand millions of dollars. Can they go on raising money at this rate? No answer can be given, because no one country will accept their government's "promise to pay."

Physical exhaustion may play a larger part. The losses in killed and wounded have been enormous. The British experts claim that Germany has lost four men by rifle bullets to every one lost by the Allies in France. Their wounded have certainly had worse care, and this adds to their comparative losses. The latest French "official statement," issued January 21, says that Germany has now only an average of twelve officers to a regiment. During this winter weather, there will, of course, be more deaths among the wounded. Further, this winter has been exceptionally severe in both Northern France and Russian Poland. As for military efficiency, the rank is more even. The Germans claimed superiority in artillery, but with the exception of their gas guns, that claim has not been justified. General Joffre and the Grand Duke Nicholas seem to be superior in military ability to the German General Staff.

No review of the war would be complete without some reference to the monetary cost. This is not to be compared to the loss of human life and the suffering. Nevertheless, it is an important item in the account. The editor of the London Economist places the financial loss at about 10,000 millions. The leading belligerents are spending about fifty billion dollars, as follows:

Russia	\$12,500,000
Germany	\$12,500,000
France	\$7,750,000
Austria	\$7,750,000
Britain	7,500,000
	\$50,000,000

These nations in 170 days have spent about \$8,500,000,000. To this must be added another \$1,500,000,000 as the amount spent by Belgium, Greece, Serbia, Turkey and other countries.

About one million men have been killed or incapacitated for life. Piling each man's monetary value at \$2,500, the total loss to the nations would be five hundred million dollars which must be added to the monetary cost given above.

MUCH WINTER HOMESTEADING

Winnipeg, Jan. 31.—Despite the fact that Canada is in the grip of mid-winter, the government records show that during the past week no less than 345 homesteads were taken up in Western Canada. Of these, Manitoba got 60, Saskatchewan 32, Alberta 38, and British Columbia 14, over 60 per cent of the new arrivals were English-speaking, 51 being Canadian, 50 British and 49 American. The remainder were from continental Europe.

During the same period 108 Americans crossed the northern line, and brought with them 110,000 in cash. Practically half of them are farmers and about thirty domestics, four mechanics and a number of clerks.

SEED GRAIN DISTRIBUTION

The Dominion Seed Inspectors are having much difficulty in finding a sufficient quantity of seed that is free from noxious weed seeds and otherwise suitable to meet the demands for seed from the unfortunate districts in the prairie provinces. The purchasing commissioners already have in storage, in the interior elevators an abundant supply of good seed wheat, but as yet less than one-fifth of the seed oats required is in sight, and those responsible for procuring them despair of obtaining a sufficient quantity of the desired standard. In 1908, when it was found impossible to procure clean seed oats in the west, a half million bushels was brought in from outside points, but it was not practicable this year to bring seed from Great Britain, France, Ireland, or Ontario. Home-grown seed containing up to 25 wild oats per pound were distributed in 1909. It is regrettable that a better quality of seed oats is not available for this year.—Seed Branch, Ottawa.

PROHIBITION CAMPAIGN

Rev. Dr. Hazlewood, of Toronto, assistant general secretary of the national service and evangelist of the Methodist church of Canada, and Dr. Shearer, of Toronto, general secretary of the same department of the Presbyterian church of Canada, will lend their services to the Alberta Temperance and Moral Reform League in their prohibition campaign. Dr. Hazlewood will speak at the following places: Fort Saskatchewan, Tuesday, Feb. 3; Vermilion, Wednesday, Feb. 3; Lloydminster, Thursday, Feb. 4; Manayuk, Friday, Feb. 5; Lacombe, Sunday, Feb. 7. (8 o'clock, 5 p.m., Sunday convention); Ponoka, Monday, Feb. 8; Wetaskiwin, Tuesday, Feb. 9; Hardisty, Wednesday, Feb. 10; Provost, Thursday, Feb. 11.

The C.N.R. have now opened the Camrose cut-off of their line for the handling of livestock and freight. They are at the present time running one train a week to accommodate the traffic and according to W. A. Brown, superintendent of the district, will run not only freight but passenger trains over the line as soon as the traffic warrants. It is expected that a time table under this line will shortly be issued.

Evil does not flourish because bad people are more numerous than good people. They are not. It flourishes because bad people are more active in this regard than good people. Love of money is the root of all kinds of evil. The promotion of evil is the occupation of men and women who make money out of it. The prevention of evil is not an occupation at which good people can make a living. It is an activity which they must carry on without the hope of financial reward, and in the leisure hours that remain to them from ordinary business. Having an honest living, had people are a while good people are busy making busy promoting schemes of evil for the sake of making a dishonest living.

Owing to excessive drinking Mr. Preston on Saturday night was unable to drive his team straight and instead of going home he took the railway car and was on the team continued on the track for a couple of miles to the bridge, crossing which one of the horses got his feet fast between the rails. The heavy jolting of the buggy awakened the man and he was just looking around to discover his position when the buggy came to an abrupt standstill. Getting down he discovered the cause and unhitched the team. He led the free horse of the track and a drawing the buggy to a place of safety started for town to secure assistance. A few minutes later the local came along and threw the unfortunate horse some twenty feet away killing it instantly. Had the team continued on the track a few moments more one man would have met with a similar fate.—Hardisty Mail.

The Old Fashioned Purgative and Gripping Action of Pills Is Now Done Away With.

Milburn's Laxa-Liver Pills gently unload the secretions, clear away all waste and effluvia from the system, and give tone and vitality to the whole intestinal tract.

They dis by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood stream. They remove indigestion, jaundice, catarrh of the stomach and similar troubles.

Mrs. L. M. Esterson, Peterboro, Ont., writes: "Having been troubled for years with constipation, and trying many different remedies which did me no good whatever, I was asked to try Milburn's Laxa-Liver Pills. I have found them most beneficial, for they are indeed splendid pills, and I can gladly recommend them to all people who suffer from constipation."

Milburn's Laxa-Liver Pills are 25c a box, 50c a box, and \$1.00 a box. Get at dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

New Year Resolutions

During the year of 1914 we have maintained the policy of a SQUARE DEAL AND THE ONE PRICE TO ALL SYSTEM.

This has gained for us the reputation that we are not making a boast but are actually meaning every word or statement that we have made in our advertisements.

We are going to maintain this policy in the future and intend to show the public that we are on the SQUARE with everybody.

Our stock of Groceries, Crockery, Dry Goods, and Boots and Shoes are now being refilled with new goods arriving daily and therefore we will be in a position to meet your requirements to your entire satisfaction.

We want to call your special attention to our Shoe department. We have the well known brands of THE AMHERST BOOT AND SHOE CO., THE NURSERY LINE, and THE LIBERTY LINE.

We guarantee the above mentioned to give satisfaction or we will refund to you the purchase price, because every pair is of solid leather throughout in their makeup, so that you run no risk in getting a pair of shoes at our store.

Our Grocery Department is always in line with Prices that are Right. Below we list a few:

HORSES FROM WETASKIWIN

DISTRICT WILL BE PURCHASED BY GOVERNMENT

Dates for the purchase of military horses for the Canadian government have been arranged throughout the west and Alberta in particular.

H. F. Reynolds, lieutenant and adjutant for the chief commissioner, commenting on the meetings says:

"I shall be greatly obliged if you will call the attention of the farmers to these meetings and to the opportunity we are affording them of dealing direct with the government. The purchasing in Southern Alberta is proceeding under the direction of our purchaser, Mr. L. S. Manzer of Medicine Hat, with Dr. Bythie as secretary. The purchasing committees for the Edmonton and Calgary districts have not yet been appointed, but in any case, the first meetings in these two districts, namely, at Okotoks, Calgary and Edmonton, will be attended by Captain J. J. Fry, C.V.C., the assistant commissioner. He has done the same in all other districts from Winnipeg to Victoria, and his presence and advice thus enable us to secure uniformity in the standard of horses purchased and also enable our committees to start off their work on the right lines.

As a small illustration of how anxious we are to help the farmers, let me say that cheques are given to the owners of horses on the day of their purchase and these can be cashed locally without any reduction. "We are anxious to both send a good class of horses over to Europe to represent the west and at the same time to give what help we can to the farmers and horse owners of Canada."

The list of meetings follows:
"F" District—Irvine, Jan. 14; Walsh, Jan. 19; Carleton Place, Jan. 21; Medicine Hat, Jan. 23; Brooks, Jan. 25; Bagley, Jan. 26; Bow Island, Jan. 28; Seven Persons, Jan. 29; Cow Head, Feb. 1; Estevan, Feb. 2 and 3; Macleod, Feb. 4; Lethbridge, Feb. 5; Claresholm, Feb. 10.
"G" District—Okotoks, Feb. 6; Calgary, Feb. 8 and 9; Nanaimo, Feb. 11; High River, Feb. 12.
"H" District—Edmonton, Feb. 10 and 11; Wetaskiwin, Feb. 12; Camrose, Feb. 13.

By the decision of the Supreme Court, the creditors of a Medicine Hat industrial concern are granted liens upon lands which the city promised to give the company upon certain conditions but which the company have not earned and probably never will earn. Medicine Hat, has therefore the alternative of paying the company's debts or handing over the land to the creditors. A great many western cities have housed industries by the promise of free sites, but the present will arouse corresponding general and lively interest. In general terms its meaning is that when a city promises a concern a site in return for certain performance the site becomes an asset of the concern and the city becomes virtually a backer of the enterprise to the value of the site. If the concern fails the city has to pay up or lose the land.

NERVES WERE BAD

Hands Would Tremble So She Could Not Hold Paper to Read.

When the nerves become shaky the whole system seems to become unstrung and a general feeling of collapse occurs, as the heart works in sympathy with the nerves.

"I doctored for a year, for my heart and nerves, with three different doctors, but they did not seem to know what was the matter with me. My nerves got so bad at last that I could not hold a paper in my hands, and the way they trembled, I gave up doctoring thinking I could not get better. A lady living a few doors from me advised me to try a box of Milburn's Heart and Nerve Pills, so to please her I did, and I am thankful to-day for doing so for I am strong, and doing my own work without help."

Milburn's Heart and Nerve Pills are 50 cents per box, 3 boxes for \$1.25; at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LEGISLATURE OF ALBERTA TO MEET FEB. 25TH.

At a meeting of the executive council, held Monday afternoon, it was decided to call a meeting of the Legislative Assembly for Thursday, February 25. This will be the regular session for 1935, and unless some extraordinary question arises there will be no second session.

Premier Sifton states that one reason for the session being held at this time is the general feeling of the members in favor of a return of the system of holding sessions during the winter months, but the special reason for haste is owing to the request on the part of the federal government for provincial legislation enabling them to register and grain liens against patented lands, as a guarantee for the seed grain which they intend to distribute in necessary cases during the present year.

As this appears to be urgent and in the interest of the country, and as it would entail no additional expense by having the session held rather than in the fall, the provincial executive thought this would be an advantageous time to make the change.

The forthcoming session of the Alberta legislature will be unique in that there is a possibility that active service uniforms may be seen on the floor of the house for the first time in the history of the chamber.

The council of the town of Camrose a few miles south of Lethbridge is in a sorry plight. With the onset of a cyclone inspector, the king of the provincial keene department, Sergeant Colridge and Corporal Moorhead of the mounted police, swooped down upon the authorities for running the town on the wide open plan. Blind pigs and disreputable houses are said to have flourished under the express patronage of the local celebrities. As a result, practically the whole council was arrested because the alleged town constable, who was not a town constable, and on Friday, last they were heavily penalized, the fines amounting in the aggregate to \$1,500. On top of that the department at Lethbridge will turn out the council neck and crop, and will order a new election.

A thorough canvass of the town will be made shortly, by the Council to ascertain how many householders are indebted to the town electric lights, with a view of reducing the rate and at the same time not to lose the present revenue. It is estimated that at present only 50 per cent of those who might use town lights are doing so and if a good number of these would install the system, a material reduction might be made in the rate without reduction of the current revenue—Stettin Independent. Wetaskiwin should also have a thorough canvass to obtain more users.

A heavy flow of gas was encountered yesterday in one of the wells of the Alberta Associated Oil Fields in the Rocky Mountain House district. The news was contained in a telegram received at the local office. Arrangement will be made to use the gas for fuel and power purposes at the camp, which will effect a saving of about \$25 a day. The strike was made at a depth of 1100 feet. The well is the pioneer bore in the district although probably 200,000 acres of land is on oil and gas in that section—Allerton.

One day last week a two-year old calf, the property of Mike Proctor, who owned a half mile east, emerged from beneath a straw stack where she has been confined for over three weeks. Mike missed his calf about December 22 or 23, and had spent some time searching for her, but without success, of course. How the animal became buried and existed is a mystery. Her release was caused by other cattle that were feeding on the straw—Lloyd Times.

DR. RIDDELL ADDRESSSES

YOUNG PEOPLE'S CLUB

On Monday, February 1, the Wetaskiwin Young People's Club met in the Wesleyan church and were addressed on "The Social Side of Christ," by the Rev. Dr. Riddell, B. A., D.D., principal of Alberta College.

Dr. Riddell prefaced his address by remarking that many people were afraid of Socialism and Socialists, and gave several amusing instances of this from his own experience in view of he had been taken for a socialist.

Different socialists had different theories about the best way to bring about a juster distribution of wealth. Some advocated centralization of capital by the state, others the sharing of profits, and still others communism. While he believed that wealth was properly distributed as some had too much for their own good, and others had too little, he was not a socialist.

Neither did he believe, as many did, that this is an age of exceptional unrest, nor that the poor are in a worse condition now than in other ages. The poor today are living under better conditions than ever before—in fact, have many comforts which in past ages were enjoyed by the wealthy only. He would not deny that today there may be a greater difference between the relative positions of the rich and poor.

To prove that this was not particularly an age of unrest, he cited the instances of the early struggles in Greece and Rome between the patricians and plebs, and of the strife between the feudal lords and serfs in England, and later of the dissatisfaction of the poor when they rose in rebellion under Jack Cade.

In dealing with his subject he said it was a large one and might include Christ's attitude to the family, the state, the social life, to wealth, and to capital, which he distinguished from wealth. Wealth might, or might not, be capital. Money which is hoarded or deposited in a bank is not capital, but wealth which is invested in manufactures or otherwise used to control or to exploit labor becomes capital. In this address he could deal only with Christ's teachings concerning wealth.

He showed how Christ by His own choice, favored the poor. His cradle was a manger. His earthly parents were peasants. His life one of poverty and financial dependence. His tomb a borrowed one. Many of His sayings—particularly as reported by Luke—seemed to be a denunciation of wealth and an exaltation of poverty. Accordingly, many socialists

BEECHAM'S PILLS

are at once safe, certain and convenient. They clear the system and purify the blood. They exert a general tonic effect and insure good health and strength, so that all the bodily organs do their natural work without causing suffering. claim him as their leader, and as the first Socialist, some going so far as to say that he advocated communism, inasmuch as he and his disciples had all things in common.

The doctor pointed out, however, that we must not only consider the sayings of Jesus, but the attitude of His whole life to wealth, to find what His real teaching concerning it is. From this we learn that what Christ condemned was not individual ownership, nor wealth, but the character which is created by trust in riches.

The wealthy as seen from the fact Christ accepted the hospitality of a home of luxury as undoubtedly the home of Lazarus was. He accepted the assistance of the rich as indicated by those who ministered unto Him of their abundance, and when Zaccheus became penitent and said: "Half my goods I give to the poor." Christ did not command him to give all.

CANADIANS LEAVE

FOR FRANCE; ALL

HIGHLY ELATED

Montreal, Jan. 30.—The Gazette has the following from a London correspondent:

"A start has been made in dispatching the men of the first contingent to France. A number have already gone, but the greater bulk will be moved across the channel early next week.

"Every man of the contingent is prepared for the move and all are highly elated at getting to the continent."

"I hear that the Princess Patricia have suffered further casualties in action."

Health conditions at Salisbury have greatly improved since the frost hardened the mud tracks. The thirty-four hundred of the Canadian soldiers have signed the Y.M.C.A. temperance pledge."

BAD BLOOD

In The Cause of Boils and Pimples.

When boils or pimples start to break out on your face or body you may rest assured that the blood is in an impure state, and that before you can get rid of them it will be necessary for you to purify it by using a good medicine that will drive all the impurities out of the system.

Burdock Blood Bitters is a blood purifying remedy. One that has been on the market for the past forty years. One that is known from one end of the country to the other as the best blood purifier.

It cures boils, pimples and all other diseases arising from bad blood. IT CURES.

Mr. Andrew P. Collier, River Chateaux, N.S., was troubled with boils for years. He first did not know what it was to be rid of them until he used Burdock Blood Bitters. It cured him.

Mr. Orla Evans, Yarker, Ont., had his face and neck break out with pimples. He tried several kinds of medicine with no success. Two bottles of Burdock Blood Bitters banished them.

B.B.B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
